

## Mercury Thermostat Recycling Collection Container Order Form

### **Instructions:**

Use this form to order mercury recycling collection containers. The containers are supplied with everything needed to return out-of-service thermostats to the Thermostat Recycling Corporation.

Each container holds approximately 100 thermostats. We suggest you have two so you will have one while the other is in transit. You will need one (or two) containers for each branch.

A one-time \$15.00 fee is required for each collection container ordered. Please make your check or money order payable to the Thermostat Recycling Corporation and send it to:

**Thermostat Recycling Corporation  
Dock 4/MN10-3860  
6801 Sandburg Road  
Golden Valley, Minnesota 55427**

For each full container you send in, a replacement container will automatically be sent to you. You will not need to order a replacement container. If you realize that your actual volume is more than you estimated, and you need more containers than originally ordered, use this form to order additional containers.
